## **NOTICE OF BALLOT ERRORS AND OMMISIONS**

September 2024

An error in the printing of ballots pertaining to the Soil and Water District Supervisors was identified. It was determined that 3 uncontested candidates for Soil and Water Conservation in Districts #3, #4 and/or #5 were incorrectly printed on the ballot. The candidate for District #3, #4, and/or #5 was only printed on the corresponding precincts ballots. These seats are county wide seats and all candidates should have been included on every ballot. All other offices were correct.

The County filed a petition requesting the District Court's approval to issue corrected ballots, which was granted on October 1, 2024.

For voters whose Absentee Ballots had not yet been returned, their A.B. ballots were spoiled and replacement ballots were sent.

For voters whose Absentee Ballots had been returned, a letter was sent explaining the error while giving the choice to A.B. voter to leave their ballot as-is OR request it be spoiled and a replacement Absentee Ballot be mailed.
